Dear Mr. Freitag;

It has been a great pleasure to work hand in hand with your company during the new face lift project at New Creation World Outreach Church in North Mankato. The project was a complete success due to your company's commitment to *excellence* and *customer service*.

Since the completion of the project we have received and heard numerous reports from within the community of a job well done by your team of employees. When ever you enter into a building project of this magnitude, *integrity, trust* and *peace of mind* is something you just can't put a price on. Thanks to your entire staff and team for not just saying it but doing it. The project exceeded our expectations and we take great pride in the finished work.

As a Church, I believe that our new outside look reflects to the community of something that is happening on the inside and it is our desire that the God of heaven will continue to bless and prosper your company going forward. Again, thank you for a rewarding and rich building experience!

Blessings;
