St James, MN 56081

Re: Letter of Reference

To Whom It May Concern:

It is my pleasure to recommend Wilcon Construction, Inc. as an outstanding construction firm. We recently completed a project that included both new construction and renovation of existing space. We found Wilcon crew members to be sensitive to our needs with regard to scheduling and maintaining our current operations. They were attentive to the construction schedule and performed excellent quality work. In their capacity as a general contractor, they maintained good relationships with us, the client, as well as with the architect and were attentive to all of the details. They were dedicated to creating a safe environment for us and for their employees. I would recommend Wilcon Construction without reservation.

Sincerely,

Gerri Burmeister, FACHE
