Winter 2008

Employee Spotlight Jaime Cedillo

If you have visited a home built by Wilcon, you have probably noticed the beautiful tile work. The artisan behind these eye-catching designs is Jaime Cedillo.

Jaime has been an integral part of the Wilcon team since 2002. He first worked for the company as a brick and block layer.

Jaime Cedillo

One day when the concrete crew needed an extra hand, we discovered that he is also a highly skilled concrete finisher.

Jaime's leadership abilities, versatility and high quality workmanship are much appreciated by the entire Wilcon team. He and his family are long-time active members of the St. James community.

Building Green

Green building is the new "era" in construction methods utilizing Leadership in Energy & Environmental Design (L.E.E.D.) This sustainable method of construction offers benefits for the owner, contractor, and for the environment which reduce costs of the project's life cycle.

Green Building Benefits:

- Long-term costs outweigh initial building costs of building
- Increased energy efficiency and renewable energy
- Maximized conservation of materials and resources
- Improved indoor environmental quality
- Enhance occupant comfort and health

Ask us how we can help you build green!

The Villas At Trail Creek

Trail Creek is located on the northeast edge of Mankato, providing easy accessibility to the city's most popular dining and shopping centers. Affordable living that includes the amenities buyers are looking for was the vision for the Trail Creek Development.

Each two- or three-bedroom townhome features a spacious master suite with a large walk-in closet and step-in shower. The open floor plan creates a large kitchen and main living area, opening out to a private outdoor patio. A separate laundry room and ample storage solutions support a comfortable and convenient lifestyle.

The master plan for the Trail Creek development includes a site for a future park and children's play area. Perhaps the most prized amenity at Trail Creek is its location adjacent to the beautiful Sakatah Trail, offering homeowners convenient access to year-round outdoor activities including biking, walking and snowmobiling. The convenience of low maintenance association living gives you time to enjoy it all.

Planning A Project?

Give us a call and we'll be glad to work with you to develop a project you can be proud of. Contact Nick Freitag at 507-375-5464 or e-mail nickf@wilcon-construction.com.

And, while you're at it, visit our website at www.wilcon-construction.com

Holiday Thoughts

The holiday season is once again upon us and we are reminded that it is important that we stop to take a few moments to reflect.

While we are not a nation without problems and challenges, few, if any, of us would choose to live anywhere else. In the coming year, we will elect a new President, a decision that will have a major impact on all our lives. We must not take that responsibility lightly, nor our freedom to do so for granted.

We are grateful to have a successful business, with dedicated, hardworking employees, outstanding building team partners, supportive corporate friends and, of course, loyal clients. You are the heart and soul of our company, without whom our success would not be possible.

All of us at Wilcon Construction wish you safe and healthy holidays and a year ahead filled with happiness, promise and opportunity.
